ARTIST TESTIMONIALS

DEBRA LOTT | ACA ARTIST: ACA has already impacted my career. When I posted my painting that received the Figurative Award on my Facebook page, I received a lot of likes and shares from people already familiar with my work - but the fact that I received an award was impressive and caught their attention. The whole event was professionally done, everyone I met was more than nice and very helpful. All my emails and questions were answered quickly and patiently. The entire night was impressive and made each of the artists feel important. This was a wonderful experience for an artist. We are seldom recognized - so we need to be encouraged and your awards program did just that!

TODD MOSLEY | ACA ARTIST: ACA has provided the opportunity to connect art aficionados with artists. My painting was purchased by a company based out of Utah. They would have never been introduced to my artwork had it not been for ACA and the connections that ADC contributes to this fantastic exhibition. I am hopeful that this will merely be the first of many sales of my artwork generated through the vast art world connections of ADC. I was listening intently to the description of the winning artwork. As it was being described, I thought to myself, "That's exactly what I was trying to do with MY painting." Then, my name was announced. I felt my wife squeeze my hand and I heard her say, "congratulations!" The rest was a blur of excitement, pride and gratitude.
