Dexter Carman

Bio:
Dexter Carman began attending shows in Rapid City in 2011 and quickly knew that he had discovered a place to find his voice as a burgeoning artist and musician. However, for as many good things as he found in the local music scene, there was a great deal of negativity as well. Many show attendees came from broken homes and brought that toxicity with them to events. In his work with The Cave Collective, Dexter seeks to recreate the transformative experiences of his own youth in an environment that is safe, accountable and empowering for folks of all ages and from all walks of life.
